

The Enneagram in Business

An Advanced Enneagram Personality Typology Workshop

with

WYATT WOODSMALL, PH.D.

Date: 6th – 7th May 2013

Venue: Engineers House, Bristol

Are you interested in business, in personality types, or in your own growth and development? Would you like to learn a personality model that will tell you more about yourself and about your friends and associates than you had ever imagined possible? Would you like to be able to communicate more effectively and to have greater impact in human interactions?

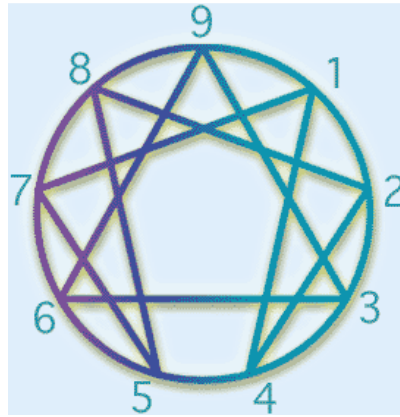

Would you like to be able to improve your ability to lead, manage, motivate, influence and sell to different types of people? If you use NLP, would you like to learn an incredibly powerful personality model that equals meta-programs in its ability to enable you to leverage your NLP skills? If your answer to any of these questions is yes, then this workshop is for you. The workshop is for everyone and assumes no prior knowledge of NLP or the Enneagram. If you are already knowledgeable on the Enneagram this workshop will present new material never previously presented that corrects many of the mistakes made in the popular books you have previously read. Many people who have learned the enneagram from the popular books on the subject end up mistyping themselves and other people. Don't let this happen to you. If you are an NLP Practitioner or higher, then you absolutely must add this powerful tool to your arsenal.

Wyatt Woodsmall is a world authority on the Enneagram and on NLP. He learned the Enneagram from Oscar Ichazo and has been studying it for over fifteen years. He is a student of mysticism and Esoteric Christianity. He is also an NLP Master Trainer and Master Modeler. This is a rare opportunity to experience a true master in action.

Anyone can profit greatly from this workshop. It will be equally relevant to the business person who wants to communicate more effectively and to the expert on NLP or the Enneagram. Anyone who wants to understand himself and others better and who wants to be able to utilize this understanding to influence more effectively should attend this workshop. Space is limited so register promptly.

This workshop will be both informational and experiential. There will be lectures interspersed with processes to discover more about yourself and others. Wear comfortable, loose fitting clothing.

**MAKE SURE THAT YOU ATTEND AND LEARN ABOUT YOURSELF,
FOR YOURSELF, FROM A MASTER TEACHER
THE ENNEAGRAM**

WHAT IS IT AND WHERE DID IT COME FROM? The Enneagram is an ancient symbol consisting of a special nine pointed star in a circle. The word "Enneagram" stems from the Greek ennea, meaning nine and the word grammos meaning points. The Enneagram is said to have originated in Afghanistan almost 2000 years ago and to have been taught as part of a secret oral tradition among Sufis (Islamic mystics) in the following centuries. Gurdjieff was a student of Sufism and used the Enneagram as one of his major teaching tools. What is less known is that the Enneagram was also used in Esoteric Christianity of which Gurdjieff was also a student and that it is part of the Christian Gnosis that has roots going back to the mystery teachings of Ancient Egypt.

The Enneagram Personality Typology describes nine different personality types and their interrelationships. The Enneagram Personality Typology was first presented by a Bolivian mystic named Oscar Ichazo. It was first revealed to the public by John Lilly and subsequently by Claudio Naranjo. There are over twenty books that are available on the Enneagram with the best known ones by Helen Palmer, Don Richard Riso, and Richard Rohr. There is also an excellent book on NLP and the Enneagram by Anne Linden and Murray Spalding. Unfortunately none of the writers on the Enneagram except for Naranjo ever studied with Ichazo and none of them are familiar with the roots of the Enneagram in Esoteric Christianity. As a result, most of the books written on the Enneagram contain mistakes and gross distortions.

WHY TAKE THE WORKSHOP? This workshop will contain new material on the Enneagram never presented before. It will trace the origins of the Enneagram in Sufism and in early Christianity and discuss how Ichazo's ideas differ from those of Gurdjieff and other authors on the subject. More important, however, this workshop will teach you about yourself and about how you can be more effective in business. The Enneagram is an incredibly powerful psychological tool and not just another personality inventory. It will give you insights into yourself and your own behavior and allow you to understand things about yourself that never made sense before. Equally important, this workshop will give you insight into your family, friends, significant others and work associates. It will enable you to understand other people better and to relate to and communicate with them more effectively.
